

STYLE:  
**COTTON CLUB 2LIFE® TENCEL™**

**BLEND:** 36% TENCEL™ / 64% rPET 2life®  
**WEIGHT:** 185 g/m<sup>2</sup>  
**KNITTING ART:** Double face piqué

**PRODUCT HISTORY**

Cotton Club®, one of 4F's flagship products and a new standout within the group.

The Cotton Club® range is composed of durable double-knit fabrics combining a soft, breathable cotton or Lyocell inner layer on the skin with a strong polyester (Natura®) or recycled polyester (2Life®) outer layer for performance and comfort

Since 2007, Cotton Club® has seen consistent success, with over 3.5 million meters sold in the last five years across professional, industrial, and outdoor applications.

**KEY FEATURES / BENEFITS**

**FEATURES**

Double side piqué

TENCEL™ for enhanced breathability

Recycled polyester blend

**BENEFITS**

This wear-resistant fabric is easy to care for, dries quickly, and manages moisture effectively. Lyocell adds comfort and breathability, keeping the skin fresh and dry.

Provides great moisture management and wearer comfort, ideal for long work hours.

Reduces environmental impact while maintaining fabric durability and dimensional stability.

**APPLICATIONS**

Logistic & transports  
 Hospitality & food services
